1 StarShowDAO Overview

1.1 What is StarShowDAO

StarShowDAO is a crypto community who shape the future of Web3 by reinventing how decentralized applications (dApps) are built, contributed, and owned. Together with our network of Web3 industry leaders and community, we build and incubate Web3 innovation in order to become a massive ecosystem of dApps that captures value regardless of which chains or sectors dominate Web3 in the future.

1.2 StarShow DAO consists of two parts: build and incubate:

As builders ourselves, we will continue to "build" cutting edge products across multiple chains and verticals. This allows us to stay relevant to the environment, connect with the right people, and understand exactly what other builders need to launch and grow successfully despite the ever-changing Web3 landscape.

We will also "incubate" new innovations in the crypto spSRS and help Web3 builders grow their projects from 0 to 1 and 1 to 100, with the support of our community and Web3 thought leader group.

We welcome builders and Web3 users to join us. The StarShow DAO will be a one-stop site for Web3 builders to start projects, and a portal for Web3 users to meaningfully contribute and "truly" own high-quality Web3 projects.

The projects we incubate will receive community support, and we help more high-quality projects bring new Web3 innovations to the crypto spSRS for enthusiasts to access and contribute. SRS token holders can get ready to participate in these projects before anyone else! If you believe in Web3 innovation, then StarShow DAO is for you. The SRS token is no longer a token for a single product or project, but a proxy for Web3 innovation.

2 Our Mission

StarShowDAO's mission is to be an innovative DAO organization driving groundbreaking products to maximize returns for cryptocurrency holders. Our innovation has expanded to a broad product ecosystem, including the StarShow live stream. We also incubated external projects as another model for creating and capturing value, further extending our mission to push the boundaries of Web3 use cases. To echo the spirit of decentralization, we believe that value creation and acquisition must be shared with the community. That's why we're expanding into the StarShow DAO and embracing the community to be part of our innovation journey.

3 What StarshowDAO Means to Web3

As builders, we have our own StarShow live video products. Incubated projects can receive practical guidance from the right experts on the StarShow live video platform to address the right areas or problems they face. Therefore StarShow DAO is able to provide builders with the best tactical and strategic advice to start their projects.

Additionally, there are a lot of unique things built into Web3, from token economics to community building, and the industry continues to evolve at a breakneck pace, rendering the experience obsolete. As we continue to develop the product, we are able to ensure that our advice and community remain relevant in different situations.

Also, building a community for a new project, especially one with a niche product, can be difficult. Bootstrapping the community is an urgent challenge for decentralized projects. However, with years of building, living and breathing in the blockchain space, we were able to provide projects with a replicable playbook for building and launching projects and a real Web3 community of over 10,000 users from day one.

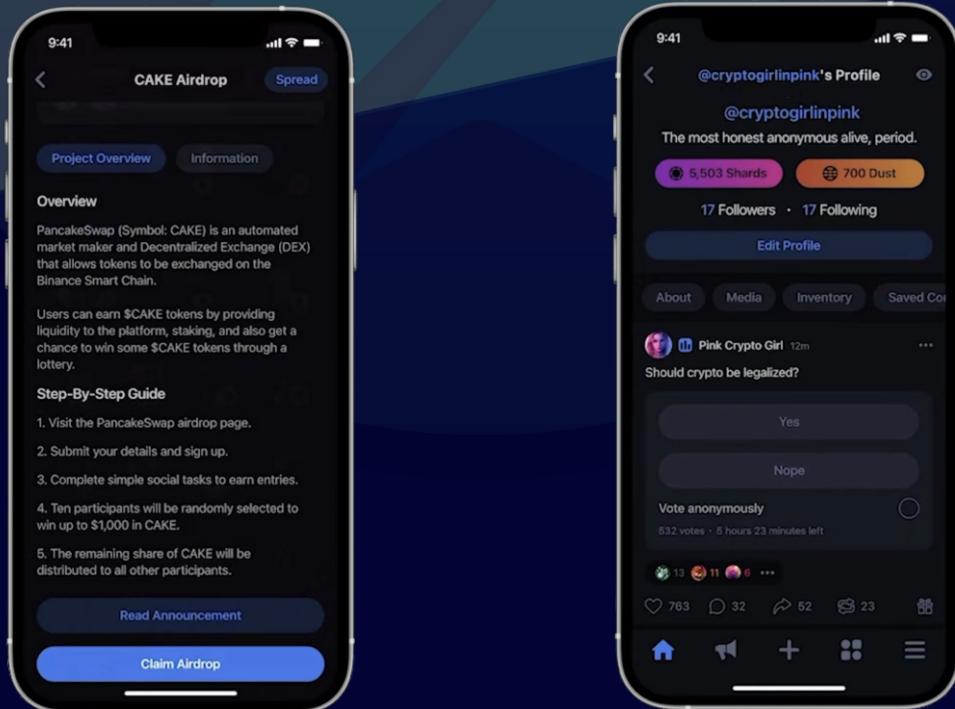

In short, the StarShow DAO helps:

a. A one-stop shop for builders to build and start Web 3 projects. Builders will gain deep knowledge from seasoned builders, thought leaders and sophisticated investors.

b. Provides access to Web3 users with expertise in any area (such as UX/UI, full stack, content creation, community building, marketing, etc.) to contribute to Web3 projects and "own" high-quality content before anyone else project.

4 What StarshowDAO Live Steam Platform

With hybrid decentralized encrypted social media as the backbone of the entire ecosystem, the integration of the StarShowDAO live Steam platform connects encrypted projects and users with different interests from all over the world, creating and realizing the world-leading SocialFi metaverse.

5 StarShowDAO Launchpad

Conventional launchpads rely on first come and first clicks. Unlike them, our launchpad is fair and equitable for all and yet rewards token holders. The StarShowDAO launchpad doesn't have high financial barriers to get into the market. It also doesn't have whitelist spots based on first form fillers. The StarShowDAO launchpad fundraising will guaranteed fund allocation to the participants based on the quality of SRS Tokens they own.

Benefits of launching with StarShowDAO Launchpad:

- **Complete Broadcasted:** Being a decentralized StarShowDAO launchpad, the prices for tiers are governed by DAO. We invite everyone in the crypto community to help us democratize fundraising with the high aspiration of the future.
- **Fair & Unbiased Distribution:** StarShowDAO launchpad promotes 100% fair & unbiased funds distribution within the projects. The fund distribution is based on simple tiers and the amount of SRS tokens they hold.
- **Sure-Fire Allocation:** Our simple tiered system ensures funds get allocated to all the new listing crypto projects. StarShowDAO launchpad doesn't work like traditional launchpads where one comes and clicks the first approach.

6 StarShowDAO Decentralized Exchange

StarShowDAO has launched a fully functional decentralized exchange. It uses a platform pancake swap fork with a custom StarShow GUI. Many pancake swap repository-based hosted allow crypto trading. But StarShowDAO supports customization and can present unique features such as grid manager, transaction manager, display rich data obtained from pancake swap API and others.

The UI and UX of StarShowDAO DEX makes it extremely responsive and dynamic.

Key ingredients utilized by the StarShowDAO DEX platform:

- **SRS:** The StarShowDAO SRS token will be a utility token fully integrated with the BNB Chain based DEX platform. It will also benefit buy/destroy fees.
- **Cross-chain Swaps:** It allows asset exchange between multiple chains trustlessly.
- **Order Book:** An automated decentralized full limit order book.
- **BNB Chain Integration:** It will make StarShowDAO DEX based on BNB Chain fast and efficient. In terms of user interface, users can find the same crypto trading experience on the StarShowDAO DEX as on the CEX platform. The platform provides the information and tutorials you need to start trading.

7 StarShowDAO Staking Programme

StarShowDAO provides a user platform to stake StarShowDAO tokens for the selected locking period. Users will be given exclusive benefits for holding and locking tokens in the staking contracts.

The total rewards offered by the platform is based on

- The number of locked tokens
- The time period for the token unlock
- The rewards linearly go up and down depending on the time period remaining for token unlock.

Users are not granted permission to withdraw locked SRS tokens before they mature and expire. However, participants can extend their locking period and increase the staked SRS tokens amount.

They are eligible to receive the Airdrop from new crypto projects on the amount staked by the users. The users are also qualified for:

- Fee distribution
- Voting rights
- Access to exclusive pools

8 StarShowDAO Token Vesting Platform

StarShowDAO Decentralized Finance has another utility - Token Vesting.

StarShowDAO uses smart contract vesting mechanism to lock and release tokens. We have already mentioned in the roadmap to prevent market damping and token manipulation. It's to ensure the prices of tokens remain stable and don't fall sharply.

Token vesting comes in handy for new projects. It releases their tokens to the public to raise funds

- To support their projects
- Development
- Marketing

People wishing to support the new projects can purchase their tokens and sell them off by the end of the purchase period in the market.

The common practices like selling-off initial token purchases by early investors create an excessive supply of the tokens. It causes a massive dip in the token price. Token Vesting ensures such situations don't arise and boosts confidence in the early contributors of the project. They can lock a certain amount of tokens for 1 or 2 years, depending on their requirements.

It's to ensure the decentralized fundraising for new projects on the StarShowDAO Ecosystem don't meet such unwarranted experiences.

9 TOKENOMICS

StarShowDAO has its native token called SRS. SRS token holders play an essential role in the various operations of the entire platform. To make StarShowDAO community-owned and engage governors aligned with the long term prosperity, StarShowDAO issues token to its users over time.

SRS Token Utility

- StarshowDAO Live Steam Platform
- StarShowDAO Launchpad
- StarShowDAO Decentralized Exchange
- StarShowDAO Token Vesting Platform

SRS USDT ANCHOR CONTRACT ISSUANCE MECHANISM:

**Total Token Supply:
1 Billion**

**Token Ticker:

LEGAL DISCLAIMER

This StarShowDAO Governance Token Whitepaper is for general information purposes only. It does not constitute investment advice, recommendations, or any form of solicitation. Any information provided is at all times subject to change by the sole discretion of StarShowDAO .

StarShowDAO is creating the SRS Token to function within the StarShowDAO ecosystem in order to provide increasing levels of decision-making ability and control over the product to the owner-base, in-world item owners, GPU MLM operators, and other stakeholders. No SRS token will represent any economic interest in StarShowDAO at any time, and StarShowDAO developed SRS for the purpose of use within the StarShowDAO Platform.

Through the development of SRS, StarShowDAO does not grant any rights, express or implied, other than the right to use SRS on the StarShowDAO Platform or within the DAO. In particular, StarShowDAO expressly denies any ability of the SRS token to represent or confer any ownership right or stake, share, security, or equivalent rights, or any right to receive future revenue shares, intellectual property rights or any other form of participation in or relating to any StarShowDAO product and/or StarShowDAO and/or any of its corporate affiliates.

StarShowDAO reserves the right to reject any usage of SRS tokens on the StarShowDAO Platform. StarShowDAO rejects any responsibility for any direct or consequential loss or damage of any kind whatsoever arising directly or indirectly from:

- (i) reliance on any information provided,
- (ii) any error, omission or inaccuracy in any such information;
- (iii) any action resulting from such information.

To the fullest extent permitted by applicable law and except as otherwise specified in writing by StarShowDAO :

- (i) SRS tokens are provided on an “as is” and “as available” basis without warranties of any kind, and StarShowDAO expressly disclaims all implied warranties as to the SRS tokens, including, without limitation, implied warranties of merchantability, fitness for a particular purpose, title and non-infringement;
- (ii) StarShowDAO does not represent or warrant that the SRS tokens are reliable, current or error-free, or that technical defects in the SRS tokens will be corrected;
- (iii) StarShowDAO cannot and does not represent or warrant that the SRS tokens or the delivery mechanism for SRS tokens are free of viruses or other harmful components.

LEGAL DISCLAIMER

No terms in this Whitepaper constitute a prospectus, an offer document of any sort, or are intended to constitute an offer of securities, or a solicitation for investment in securities. If you receive SRS tokens through an airdrop, please note that any StarShowDAO platform contribution and/or participation does not represent, constitute or involve the exchange of value for any form of securities, investment units and/or form of ordinary shares in any project, in any platform, in StarShowDAO , or any other related company.

This Whitepaper in any part thereof and any copy thereof must not be transmitted to any country where distribution or dissemination of these documents and its information is prohibited or restricted. No regulatory authority has examined or approved to this date of any of the information set out in this document. The publication, distribution or dissemination of these terms do not imply that the applicable laws, regulatory requirements or rules have been complied with.

To the fullest extent permitted by the applicable laws, regulations and rules, StarShowDAO , its founders, team members and any third party involved in the project shall not be liable for any direct, indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on the information in this Whitepaper, or any part thereof and/or information provided on the StarShowDAO web page. To the fullest extent permitted by applicable law:

- (i) in no event will StarShowDAO or any of the company parties be liable for any indirect, special, incidental, consequential, or exemplary damages of any kind (including, but not limited to, where related to loss of revenue, income or profits, loss of use or data, or damages for business interruption) arising out of or in any way related to the distribution or use of SRS, regardless of the form of action, whether based in contract, tort (including, but not limited to, simple negligence, whether active, passive or imputed), or any other legal or equitable theory (even if the party has been advised of the possibility of such damages and regardless of whether such damages were foreseeable);
- (ii) in no event will the aggregate liability of StarShowDAO and affiliate parties (jointly), whether in contract, warranty, tort (including negligence, whether active, passive or imputed), or other theory, arising out of or relating to SRS or the use of or inability to use SRS.

LEGAL DISCLAIMER

All statements contained in this Whitepaper, the StarShowDAO webpage, statements made in press releases or in any pLSRS accessible by the public and oral statements that may be made by StarShowDAO , its founders, team members and any third party involved in the project and acting on behalf of StarShowDAO , that are not statements of historical fact constitute “forward-looking statements”. No information in this Whitepaper should be considered to be business, legal, financial or advice regarding contribution or participation to the development of the StarShowDAO Network and any of its projects. StarShowDAO does not make or intends to make, and hereby disclaims, any representation, warranty or undertaking in any form whatsoever to any entity or person, including any representation, warranty or undertaking in relation to the truth, accuracy, and completeness of any of the information set out in this Whitepaper.

All SRS recipients are responsible for implementing reasonable measures for securing their own wallet, vault or other storage mechanism used to receive and hold SRS tokens, including any requisite private key(s) or other credentials necessary to access such storage mechanism(s). If any private key(s) or other access credentials are lost, the holder may lose access to their SRS Tokens. StarShowDAO is not responsible for any losses, costs or expenses relating to lost access credentials. StarShowDAO shall have no obligations in any form or whatsoever to you in respect of SRS tokens. It is the token holder’s entire responsibility to withhold, collect, report and remit the correct taxes to the appropriate tax authorities regarding any received SRS tokens.
